JOURNAL OF TIME SERIES ANALYSIS
INDEX TO VOLUME 18 1997

Anderson, T. Goodness-of-fit tests for autoregressive processes 4:321

Baragona, R. and Carlucci, F. An optimality criterion for aggregating a set of time series in a composite index 1:001

Barnett, G., Kohn, R. and Sheather, S. Robust Bayesian estimation of autoregressive–moving-average models 1:011

Berlinet, A. and Francq, C. On Bartlett's formula for non-linear processes 6:535

Bhansali, R. Robustness of the autoregressive spectral estimate for linear processes with infinite variance 3:213

Cappuccio, N. and Lubian, D. Spurious regressions between I(1) processes with long memory errors 4:341

Cheng, X., Wu, Y., Du, J. and Liu, H. The zero crossing rate of *p*th-order autoregressive processes 4:355

Datta, S. A note on L_1 density estimation for linear processes 4:375

Davidson, J. BOOK REVIEW: Tanaka, *Time Series Analysis: Non-stationary and Noninvertible Distribution Theory* 5:529

Deo, R. Asymptotic theory for certain regression models with long memory errors 4:385

Flores, R. and Novales, A. A general test for univariate seasonality 1:029

Francq, C. and Roussignol, M. On white noises driven by hidden Markov chains 6:553

Gao, H.-Y. Choice of thresholds for wavelet shrinkage estimate of the spectrum 3:231

Giraitis, L., Robinson, P. and Samarov, A. Rate optimal semiparametric estimation of the memory parameter of the Gaussian time series with long-range independence 1:049

Hidalgo, J. Nonparametric estimation with strongly dependent multivariate time series 2:095

Hong, Y. One-sided testing for conditional heteroskedasticity in time series models 3:253

Keenan, D. A central limit theorem for $m(n)$ autocovariances 1:061

Koopman, S. BOOK REVIEW: Pole *et al.*, *Applied Bayesian Forecasting and Time Series Analysis* 5:533

Kunst, R. Testing for cyclical non-stationarity in autoregressive processes 2:123

Ling, S. and Li, W. Diagnostic checking nonlinear multivariate time series with multivariate ARCH Errors 5:447

Lobata, I. Consistency of the averaged cross-periodogram in long memory series 2:137
